ACCOMPLISHMENTS | PROJECTS

TWO GRADUATION PROJECTS

PROVIDENCE UNIVERSITY, 08/2017-12/2018

Collaborated with team of four in the developments.

1. RoseFit - an IOT plant-caring system.

I was responsible for the front-end web development using PHP & MySQL, and the database design and management.

2. SuccuBook - a website of succulent identification.

I was responsible for the back-end using TensorFlow transfer learning model.

A PROJECT WITH FACULTY OF TAIWANESE LITERATURE

PROVIDENCE UNIVERSITY, 02/2017- 06/2017

Collaborated with team of 8 during the development of a curation.

I was responsible for the web design and communication with the students in faculty of Taiwanese Literature.

TEAMWORK AWARD - TAIWAN SUMMER OF CODE 2018

ITSA 教育部智慧創新人才培育計畫

Collaborated with team of four in the development of SuccuBook (one of the graduation project). ([Demo](#))

PARTICIPATION OF CIS - MISGA CASE COMPETITION 2020

([The Certificate](#))

MOTION MANAGEMENT SURVEY - DATA VISUALISATION

AUSTRALIAN CLINICAL DOSIMETRY SERVICE, 03/2022-06/2022

Collaborated with team of five to develop a web portal that can visualise and export the data of MM survey by using Next.js.

I was responsible for some charts' interaction, such as group-by and select box, and data analysis on the website. ([Demo](#))

EDUCATION

Master of Information Technology, 2020-2022
